

Metalic Range

Any design can take shape with Lamicolor Metalic high pressure decorative laminate. It is

- antistatic and dustproof; with a
- high degree of resistance to chemicals, scratching, stains and even boiling water.

This is an ideal product for home furnishings, but it is also perfectly at ease in offices and shops, where it can be used to create showcases, counters and worktops.

Its high resistance and easy maintenance also makes it the ideal partner in uses where constant cleanliness and excellent hygiene are needed, such as sterile rooms in hospitals and laboratories, where it can be used for tops, doors and wall partitions. It also offers a host of different uses in schools, hotels and public buildings in general.

Lamicolor make selecting Lamicolor Metalic HPL easy for specifiers by the introduction of extensive product options. Lamicolor can be purchased in HPL sheets and pressed panels.

Please refer to the **Lamicolor Availability Chart** for full details on stocked range.

In addition to the Availability chart a larger range of other decors and thicknesses can be indented from Italy to order.

METALIC LAMINATE

Lamicolor is comprised of several sheets of Kraft paper impregnated with phenolic resins, plus a sheet of decorative paper and a cellulose overlay impregnated with special melamine resins.

The Metallic range (excluding True Metal **M** are 0.9mm) is available in 0.7mm Postforming grade high pressure laminate. The complete range is suitable for horizontal and vertical applications. Please see the HPL technical data sheet for a full list of resistances.

Lamicolor's Metallic consists of several finishes and two thicknesses and is available as pressed panel either with single sided or double sided colour. All Metallic panels produced by Lamicolor are made using 0.7mm 3050x1200mm HPL (excluding true metals **M** are 0.9mm). They are bonded using environmentally friendly PVAC glue can be made using any type and thickness of substrate.

Specification Notes

Please specify the following information:

Product Code: E.g. L5022BR
Colour Name: Brushed Copper
Company Name: Lamicolor
Contact Details: +61755633044

*Please inform us when you have selected our products so we can assure that material is available and can be supplied to suit your project deadlines .
