

QUADRA BENCH TOPS by DUROPAL

Any design can take shape with Duropal Quadra Bench Tops . It is

- Strong and Safe for use with food
- Heat resistant up to 250°C, water and impact resistant
- Has a high quality sealed non drip edge which prevents water from penetrating the base units
- No electrostatic charge
- Comes 600mm depth single rolled and 900mm depth double rolled

This is an ideal product for Kitchens, hotels and restaurants, laboratories, banks, medical practices, counters, workbenches, furniture and shelving. Lamicolor make selecting Duorpel Quadra Bench Tops easy for specifiers by the introduction of extensive product options.

Please refer to the **Quadra Bench Tops Availability Chart** for full details on stocked range. *In addition to the Availability chart a larger range of other decors and thicknesses can be indented from Germany to order.*

QUADRA BENCH TOPS by DUROPAL

All Quadra worktops are faced with fully cured High Pressure Laminate (HPL). Fully cured Postforming grade HPL ensures a totally sealed surface which is extremely stain, scratch and impact resistant.

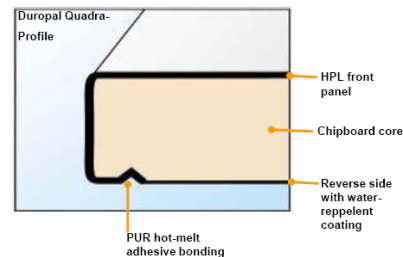

The overlay and décor papers are melamine impregnated—one of the hardest materials available for this use.

The core is phenolic impregnated facilitating the Postforming process.

Impact resistance, durability and scratch resistance all meet, and in most cases, exceed BS/EN 438 requirements.

The glue line is especially formulated by Duropal for maximum bond strength, heat and moisture resistance. The high-quality PUR hot-melt adhesive bonding between worktop, HPL décor and overlay is currently unique on the market and has a two-fold purpose:

1. Excellent sealing properties between worktop, HPL décor and overlay
2. Profiled edge to protect floor cupboards against penetrating water as above dishwashers and laundry appliances

A further advantage of the worktop is the water and vapour barrier properties of the lamination on the reverse side, for which Duropal uses a special paper. The result is a coating that is both water and vapour resistant. The Duropal overlay is often only “visually” comparable with that of their competitors.

The back edge is sealed and protected with a white melamine strip.

Specification Notes

Please specify the following information:

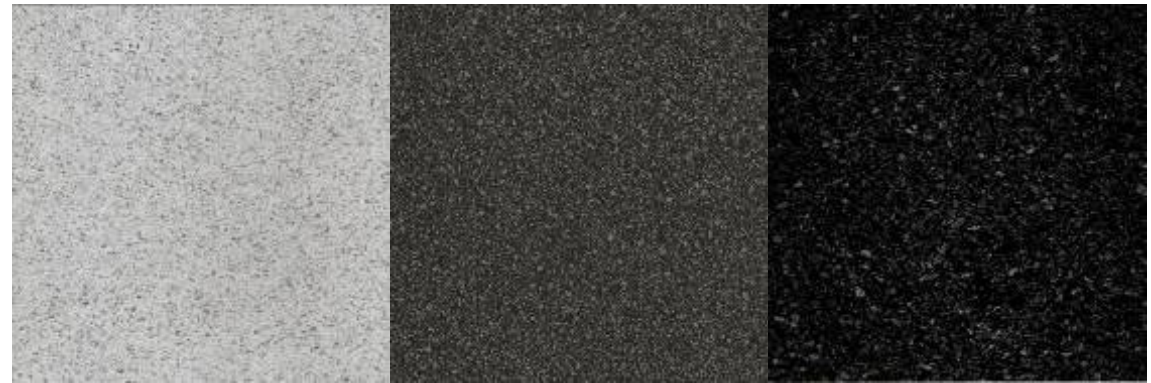

Product Code: E.g. F7655HS Duropal Quadra Top

Colour Name: Tula Titan

Company Name: Lamicolor

Contact Details: +61755633044

*Please inform us when you have selected our products so we can assure that material is available and can be supplied to suit your project deadlines .
